DETAILED ACTION

Response to Amendment

1. The amendment filed 11 April 2005 has been entered in full.
2. Based on Applicant's amendments, the objection to the specification has been withdrawn.
3. Based on Applicant's amendments, the 35 USC 101 rejections on claim 1 is withdrawn.
4. Based on Applicant's amendment, the 35 USC 103 rejections has been withdrawn.
5. Based on Applicant's amendment, the 35 USC 112, second paragraph, rejections on claim 2 has been withdrawn. Applicant's amendment to the claim 3 has been fully entered, but is not persuasive and the 35 USC 112, second paragraph, rejection on claim 3 still stands.

Specification

6. The specification of the instant invention do not recite required headers such as "Background of the invention", "Brief summary of the invention", "Brief

description of the drawings”, “Detailed description of the disclosure” to differentiate between different body parts of the specification.

7. The following guidelines illustrate the preferred layout for the specification of a utility application. These guidelines are suggested for the applicant's use.

Arrangement of the Specification

As provided in 37 CFR 1.77(b), the specification of a utility application should include the following sections in order. Each of the lettered items should appear in upper case, without underlining or bold type, as a section heading. If no text follows the section heading, the phrase “Not Applicable” should follow the section heading:

(a) TITLE OF THE INVENTION.

(b) CROSS-REFERENCE TO RELATED APPLICATIONS.

(c) STATEMENT REGARDING FEDERALLY SPONSORED RESEARCH OR
DEVELOPMENT.

(d) THE NAMES OF THE PARTIES TO A JOINT RESEARCH AGREEMENT

(e) INCORPORATION-BY-REFERENCE OF MATERIAL SUBMITTED ON A
COMPACT DISC (See 37 CFR 1.52(e)(5) and MPEP 608.05. Computer
program listings (37 CFR 1.96(c)), “Sequence Listings” (37 CFR 1.821(c)),

and tables having more than 50 pages of text are permitted to be submitted on compact discs.) or

REFERENCE TO A "MICROFICHE APPENDIX" (See MPEP § 608.05(a).

"Microfiche Appendices" were accepted by the Office until March 1, 2001.)

(f) BACKGROUND OF THE INVENTION.

(1) Field of the Invention.

(2) Description of Related Art including information disclosed under 37 CFR 1.97 and 1.98.

(g) BRIEF SUMMARY OF THE INVENTION.

(h) BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWING(S).

(i) DETAILED DESCRIPTION OF THE INVENTION.

(j) CLAIM OR CLAIMS (commencing on a separate sheet).

(k) ABSTRACT OF THE DISCLOSURE (commencing on a separate sheet).

(l) SEQUENCE LISTING (See MPEP § 2424 and 37 CFR 1.821-1.825. A

"Sequence Listing" is required on paper if the application discloses a nucleotide or amino acid sequence as defined in 37 CFR 1.821(a) and if the required "Sequence Listing" is not submitted as an electronic document on compact disc).

Abstract

8. The abstract of the disclosure is objected to because:

Abstract of the instant invention **figure 1c** after the end of abstract body, which do not conform to US practice.

Examiner suggests the removal **figure 1c** after the end of abstract body, as a correction.

Correction is required. See MPEP § 608.01(b).

Claim Objections

9. The disclosure is objected to because of the following informalities: While there is no set statutory for claims, the present US Patent Office practice is to insist that each claim must be the object of a sentence starting with "I (or we) claim," "The invention claimed is" (or the equivalent). (See MPEP, 608.01 (m) IR-21 Form of Claims) Appropriate correction is required.

Claim Rejections - 35 USC § 112

10. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

11. Claims 3-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3 recites the limitation "the source module has no input port and the sink modules have no respective output ports". The claim limitations appear to be indefinite to particularly point out the subject matter which applicant regards as the invention. More details are required in order to clearly explain the claimed limitations because of the following:

- No input port to the Source Module means no input data to Source Module.
Therefore the Source module does not have any data to process.
- No output ports for the Sink module means no processed data is output.

All other claims depending on claim 3 are subject to same rejections as applied to claim 3.

Without these additional details, to one of ordinary skill in the art it would be unclear the meets and bounds of the claimed invention.

Examiner suggests the correction of all the claims that depend on claim 3 so that they conform to current US practice.

Allowable Subject Matter

12. **Claims 1-2, 10-14 and 16-17** are allowed and will be renumbered to group depending claims.

13. The following is an examiner's statement of reasons for allowance:

In regards to independent **claim 1**, the reasons for allowance should be evident from pages 10 and 11 of the previous non-final office action mailed on 11 January 2005. **Claims 2, 10-14 and 16** contain allowable subject matter at least by dependency on claim 1.

Claims 3-9 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

14. The following is an examiner's statement of reasons for allowance:

In regards to independent **claim 17**, the reasons for allowance are the same as applied to the claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

15. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
